

GETTING BACK TO BASICS SERIES

Bring your lunch and refresh on the fundamentals!

The series continues with:

Asperger's: An overview

The presentation is given by two gentlemen diagnosed with Asperger's who will discuss the topics and issues they would like everyone to be aware of. They will go over not only what those with Asperger's need, but also what is necessary from the people who work with them in order to make them successful. We will be presented with an inside perspective of what they would like people in their lives to know.

Facilitated by: Art Kolbjornsen
